

Extra Species

Species Name:	Tally:	Total Number:

Ecological Survey

Ecologist Name:

Date(s) of Survey: / /

Where it was:

Stamp of completion:

(Return to Cambridge Science Centre to stamp.)

Instructions for Surveying

Found more species not on the list? Write them in the "Extra Species" section at the back!

Birds:

Name:	Tally:	Total Number:
Woodpigeon		
Robin		
Magpie		
Bluetit		
Sparrow		
Blackbird		

- Never conduct a survey without a supporting ecologist – **always take a responsible adult with you!**
- **Be safe, be seen!** A good ecologist is always aware of their surroundings – look out for cars, cyclists and pedestrians when you are conducting your survey near roads and pathways. If you have a reflective jacket, wear it!
- **Use the reference pictures** on the next page to help you identify the plants and animals in the lists. You can also ask an adult to help you find pictures and extra information on the internet.
- Fill out as much or as little as you like. You don't have to go out and spot everything in the booklet.
- Wildlife and plant life can be easily scared or harmed. **Do not touch any flowers, animals or insects that you find**, only look at them.
- **If you find a species that isn't in the list**, add it to the "Extra Species" section at the back of the booklet.
- **Don't forget to report back to Cambridge Science Centre with your findings!**
You can also email your results to: info@cambridgesciencecentre.org – just include the subject "Ecological Survey 2026".
- Share your survey journey with us on social media!
